A New Invention.

SAID TO BE THE FIRST TO UTILIZE PRICTIONAL ELECTRICITY.

A Novel Device for Separating Flour from the Bran-Claimed to be an Invention that is Worthy to be Ranked with the Cotton Gin.

New Haven, Conn., March 14. The son of Superintendent Smith of the Atlantic Flour Mills noticed some months ago, while watching the pro-cess of bolting flour, that the electric-ity pervading the belting used in con-nection with the purifying machines attracted the bran and caused it to cling to the belt in large quantities. Thus was suggested the machine that was patented last month under the name of the "Electric Middlings Purifier," and which his friends say is invention equal in importance to that of the cotton gin, and the first application of frictional electricity to

On Saturday afternoon last a nota-ble gathering assembled in a dingy room in the third story of a machine shop in this city to see one of the purifiers in operation. Thomas D. Osborne, a young man of twenty years, explained the invention. He is half owner of the patent, and is a member of the junior class in Yale College. Smith was his classmate until recently, when failing eyesight com-pelled him to leave college. When he conceived the idea of an electric purifier, he went to young Osborne and asked him to have a machine constructed embodying the frictional electricity idea. Working together, the young men brought forth the

In the bolting machine now in use the bran is separated from the flour by a powerful air blast, which blows off the lighter bran. Considerable steam power is needed, the work must be dene in an enclosed chamber on account of the dust, and there is a great waste, because the air current carries off with the bran the finer particles of flour. In the new invention electricity is designed to take the place of the air blast. Just over the wire bolting cloth, which has a rapid wire bolting cleth, which has a rapid reciprocal motion, are a number of hard rubber cylinders, slowly revolving. As they turn they rub against strips of sheepskin, which are made to press down upon them, thus generating the electricity. As the middlings are sieved by the reciprocal motion, the lighter bran comes to the top of the moving middlings, and is attracted to the rollers. To these it clings, as do pieces of paper to a stick clings, as do pieces of paper to a stick of sealing wax when it has been smart-ly rubbed, until a certain quantity is attracted when it drops into receiving troughs, whence by a simple mechanical arrangement the bran is brushed out of the side of the purifier into receptacles. At the same time the flour is pouring out of the other side of the machine, while the "tailings" drop out at the end opposite the hopper. The persons who saw the new puri-

fler in operation on Saturday agreed that it was a wonderful invention Although shown unenclosed, in an erdinary machine room, there was neither dust nor waste. It was said man working at a crank. The electric power was in proportion to the speed of the roller. In the experimental purifier eight six-inch rollers were used. Mr. Smith is now in Minnes arranging to put one into one of the largest flour mills in that State, which will have eighteen eight-inch rollers. It is claimed that the new purifier can be manufactured at less cost than those in present use. Last year there was great damage caused in St. Paul, Minn., by explosions in flour mills while bolting middlings by the air blast process. It is claimed that there can be no explosion where the electric machine is used.

The completion of the road will make Guaymas a port of considerable importance.

The A. T. & S. Fe company some time since swallowed the Atlantic and Pacific company, and, after building the main line to Guaymas, they propose to carry out the project of the Atlantic & Pacific Co. by constructing a road along the thirty-fifth parallel, with a terminus at San Francisco, and perhaps a branch to San Diego. The new road to Guaymas will shorten the distance from the Atlantic to the Pacific 600 miles, and Australia is 1,000 miles nearer to Guaymas than to San Francisco. These advantages will secure abundant traffic to the new road.

HORATIO SEYMOUR.

Of Horatio Seymour "Gath" gives this picture in the Enquirer of Cincinnati: "Seymour, to look at, is every large, Yankee type of man; six feet or over, wearing a suit of black cloth, with long frock coat and large country boots, well blackened, and a German daily paper of northern Ohio, high hat. He has a benevolent face says that he is satisfied that nothing and a pair of rich dark eyes. April Fool's Day in Rene

This is the day for practical jokes. At Dave McFarlands's and at the Wine House this morning the old cotton doughnut "dodge was played with considerable success. Pete Comstock was one of the first victims. He stepped into McFarland's on his way to see some large, fine-looking dough-Comstock, as he took one in his hand, and gazed at it admiringly while the water was being mixed, "these are good ones, I guess; just the thing these cold mornings." Then he bit off the end of the one he held. "What in the devil's this?" he added, as he

light," and returned the dainty to the

"Give me a pint of coal sil, and be quick about it," said Watchman Ross, as he handed a black bottle to Henry as he handed 's black bottle to Henry Johnson in Jerry Schooling's store this morning. "Aye, aye, air," cried Henry, as he rushed to fill the order. He quickly measured out a pint of the fluid and poured it into the bottle, but it had no bottom and the oil flowed out upon the floor.

Many other jokes were perpetrated to-day, some harmless enough, and others of a reprehensible sort. The sylictims say nothing, and keep the bait fresh for the next comer.

The following is the list of the over and passengers to pass through Rand his evening on the Pacific express Wm. Simon, New York; S. F. McClelland, Cincinnati; E. B. Haladen, San Francisco; James W. Connelly, Pittaburg; George H. Duval, Milwaukee; Henry Carns, Mobile; George Medlock, Buffalo.

"SURPRISING" THE MINISTER-

Are Becelved At a

The Rev. George R. Davis of Carson was lately "Surprised" at his residence by a party of his church members, and the same number of the Appeal which chronicied the fact contained the following humoreus article.

Rev. George R. Davis. is heard at the door. The parson has-rily throwing a dilapidated dressing gown ever his Sunday clothes to assume an appearance of neglige, goes to the door with the air of a man who expects to be shot down by an assassin, or called upon to go twelve miles in the country to marry a couple for five dellars and pay his own expenses. He sees the porch full of people with bundles and baskets in their hands.

"Why, good evening ladies; what does all this mean? Do you wish te Everybody laughs heartily and the crowd pour in. The good wife is ait-ting in a rocking chair and rises to

"Why, good evening; this is indeed a surprise! Why didn't you let me know you were coming. Come right in here and take off your things. Why, Mrs. ———, how do you do ?"

Presently a small boy, dressed in his new Sunday pants, comes in and remarks with charming candor: "We knew you were comin's week ago." After that a full understanding is arrived at all round and the fun begins.

THE S. F. ELECTION

The Citizens' Union Ticket Will Have

SAN FRANCISCO, March 31. Owing to some mismanagement on the part of some of the election officials the count is not yet complete, but the majority of the Citizens' ticket will not vary much from 6,900. It is not decided yet whether the

Workingmen will contest the election on account of the difference of the ballot paper, though the report is that they will. The facts of the case are that the Workingmen procured their paper from the Secretary of State, while the Citizens' Union obtained theirs from a dealer in the city. There is no evidence that the variation color was the result of intention. Whether or not any contest is

to be made the general impression seems to be that nothing will come of it, as mere formality will not be allowed to reverse the clearly manifested will of the people.

The Eureka Sentinel says that not long since, at Elko, Major Dennis, Sheriff Fitch, Littlefield of the Post, and Sears of the Independent were having a quiet little game of "draw." The Major, in a fit of abstraction, the four aces from the pa with which the game was being played and laid them on his knee. The game progressed, and at a certain stage the Major almost "raised" his antagonists out of their boots. When the "draw' came he threw away his legitimate five cards, called for one and reached for the four aces on his knee. They were gone! Rising, he cried in tones to the Postoffice this morning to get a this thing has gone far enough the class of water. He was greatly pleased There's cheating going on around this

The Omega Mine. Messrs. Cox, Young and Bell are prosecuting work diligently on the Omega ledge recently discovered by them in Winnemucca Mountain a few miles west of Winnemucca. The found his mouth full of cotton batting. Sincer State is informed that the ledge is eighteen feet wide, and old miner was the first of April, and a light who have examined it say the cropwas the first of April, and a light dawned en his mind.

The "boys" smiled as a Chinaman came in and took the doughnut proterred by the ready bar-keeper. But the acute Celestial did not bite, or had perhaps been bitten before. Weighing the deceptive thing in his hand, he remarked the sample of the ore assayed by D. Van Lennep contained \$262 in salver and over \$1,600 in gold to the

A Question In Gramma

A Boston schoolmarm offers a reward of 300 copper cents to the peron who can successfully con these lines:

"Life is a sea; how fair its face,
How smooth its dimpling waters pace,
Its canopy how pure,
But rocks beneath and tempests sleep
Insidious o'er the glassy deep
Hor leave one hour secure."
Now let the seminary girls wre

POWNING IN EFFICY.

Stuffed Figure that Dangled the Bridge this Morning.

Early risers who crossed the bridge this morning were startled at the sight of an apparently lifeless figure of a man hanging from one of the cross beams A close examination, however, dispelled the awe which such a spectacle awakened. The figure was soon discovered to be a stuffed effigy. Then It may be remarked, in passing, that the question arose? For whom can it Sam Davis of the Appeal is a son of be intended? The figure was dressed in dark clothes, and in its right hand The utter astonishment of a preacher when his house is invaded by a surprise party is prebably the finest piece of acting which people ever undertake in every-day life. He knows all about the contemplated invasion some tendays ahead, and begins to arrange his house, much after the manner of a mariner, who clews everything down and braces the main stays in anticipation of a tempest. At 8 o'clock a ring is heard at the door. The parson hasthough the likeness to Washoe's Sen-ator was undeniable, it seems strange that anyone could imagine that he might commit suicide as a result of reading the GAZETTE. "I don't see much point in that," said

one of the spectators. "But if he, or anybody else should commit suicide after reading the Journal, there would be nothing to be surprised at."

Temperance Meetings Every Night D. Banks McKenzie delivered at interesting lecture to a good audience in the Reform Club Hall last evening. He lectures again in the same place this and to-morrow evening, his theme being the temperance question in its many aspects. The Club expect a rousing benefit for him next Saturday night. The meetings at the Reform Club Hall are free and the public are Club Hall are free, and the public are cordially invited to attend.

It is composed of rare antiseptic herbs and is en tirely free from the objectionable and injurious ingredients of Tooth Pastes, &c.

Beer Guzzling in Virginia Dick Sullivan, in the Sacramento Saloon at Virginia, on Tuesday night, said that he could drink five schooners of beer without stopping. Some one agreed to pay for the beer if he would do it. Five full schooners were ranged on the bar, and Sullivan drank their contents in one minute and for-ty-eight seconds. The beer came up in less time.

Too Fond of Overalls,

Joseph Barrett was quietly walking away from the White House yesterday afternoon, with a dozen pair of overalls, but Morris Ash spied him and arrested his further progress. Joseph explained to Justice Young that he had merely stolen the goods, where-upon His Honor judiciously commit-ted him to jail for fifteen days.

\$75.00 worth for \$15.00, Solid Abyssinian' Gold Watch FREE! FREE!! AFREE!!!

The above offer is genuine, although at first sight you would consider it impossible. We will explain: Since we first established our business here, March 1st, 1878, we have paid particular attention to the buying of Bankrupt and Auction lots of Jowelry and Watches offen buying at as 10w as one-tenth their rupt and Auction lots of Jewelry and Watches often buying at as low as one-tenth their value, and in no instance have we paid over one-sixth the manufacturers' price. Since starting we have always been able to dispose of these goods in Chicago and through our regular customers throughout the country at moarly regular prices, as fast as we could procure them, but owing to the large number of failures among the heaviest dealers and manufacturers throughout this and other conntries during the months of June, July and August (the time when the jewelry business is stagnant), we have now on hand as immense stock of the most desirable goods we have ever handled, and which we have bought at lower prices than ever before. In order to dispose of this entire stock in the most speedy manner possible, and make room for new ones which we shall continue to buy, we have hit upon the following novel plan:

We propose to give you a list of the most desirable of these codes give propose to give you a list of the most desirable of these codes give propose to give you a list of the most desirable of these codes give propose to give you a list of the most desirable of these codes give propose to give you a list of the most desirable of these codes given consequently and the most desirable of these codes given consequently and the most desirable of these codes given consequently and the most desirable of these codes given consequently and the most desirable of these codes given consequently and the most desirable of these codes given consequently and the most desirable of these codes given consequently and the most desirable of these codes given consequently and the codes and the code of the
